RUSSIAN FLEET SMASHED

VOLUME XXVII.

Baltic Squadron Practically Annihilated by the Japanese.

Fleets Clash in Korean Straits and Czar's flopes of Victory Are Dashed.

Rojestvensky's Ships Go Down Be fore the Victorious Gunners of Admiral Togo.

Muscovite Admiral's Effort to Deceive the Japanese Fails Completely.

Oream of Russia for Success in th War Seems Ended by This Disaster.

Admiral Togo has won a victory o colossal magnitude. It is certain that Admiral Rojestvensky's fleet has been practically anullillated during a big sea battle in the straits of Korea on Saturday and Sunday. Twelve warships have been sunk or captured and two transports and two torpedo boat destrovers have been sunk.

One report which is given much credence is that Admiral Kamimura. working practically independently of Togo, but under the commander's general orders, has taken an important share in the combat.

The story is that after the first battle of the good Russian ships broke

LINE OF BATTLE OF THE RUSSIAN FLEET IN KOREN STRAITS.

ficiently formidable force in shape to lying between Japan and the Tsushi continue the pounding of the flying Russian forces

Frightful Loss of Life.

What the losses sustained by the personnel total-cannot be a scertained. It is believed, however, that the Rus sians have fost at least 2,000 killed. wounded and drowned. One of their cruisers, the Admiral Nakimhoff, it is believed, was blown up and the 600 souls aboard were either killed or drowned.

by the fact that one of the Russian ships, the Sissoi Veliky, it is believed. was boarded and captured, though it

When the opportune moment came Togo struck, struck hard and success The exact force which Togo are not yet definitely known. It is armored emisers, thirty torpede hoat destroyers, and about 100 torpedo boats, submarines, besides some protected emisers.

time, which is twelve hours ahead of American time, Togo gave the order to attack. The maneuver he observed was described as that of a melee. His torpedo craft are thought to have dash ed like a cloud of hornets at the Russian battle line. It was here that Ro

For the clear setting of the seen of the tragedy it should be stated that the Korean strait from the Korean to the Japanese shore is 110 miles wide, but is divided into two channels by Tsu Island, the southern end of which is heavily fortified. On the Korean side lie l'usan and the great harbor of Masampho (Masampo) bay; on the Japanese side is Shimonoseki. Here at Fusan and on the northern extrem ity of Tsu Shima are wireless stations, ready to record pulsations from every direction. The Korean channel is about thirty miles wide; the Japanese chan nel is about eighty miles across. It was by the Japanese channel that Ro-

hal, with dismissed orders to return to Europe, Rolestvensky formed his fight on the starboard or right column and his cruisers and destroyers on the port

According to the reports that linve reached Nagasaki, the course of the Russians was at first due for the channel on the Korean side of Tsu Shima that Rojestvensky knew that on that side lay clear water and a steady current, while on the other the January e channel the passage was blocked with islets, uncertain in tide and sowed with mines. Why the Russia swerved at the last moment-and all reports appear to show that he did-the Nagasaki correapondent does not know. It was a desperate choice.

The evening of Saturday, May 27, was closing in, when the Russian sea columns appeared north of Quelpau Island, and it was growing dark when a gun was fired from the Japanese thigship. Instantly the wasps of the sea darted out toward the oncoming

Russians.
Early in the engagement the Borodino was seen to settle, and soon after the Orel was sunk the renairship Kamchalka, loaded with valuable machinery, going down from a torpedo rent. The Russians fought bravely, but the gumery of the Japanese was deadly. When Sunday was closing the Russian armada was scattered and beaten and Togo holds the straits," was the la-

Thus, therefore, passes the last hope of the Russians for improving the sitnation of their armies on land by cutting off the supplies and re-enforce ments of the Japanese forces in Man churia. Even a drawn soa battle would have given the Russians little chance of interfering with the Japanese transports; this sweeping defeat leaves Japan the opportunity to use a short sea transit for her troops, while Russia must still depend upon the long, slow and uncertain route over the Siberian

In the interest of humanity the world is to be congratulated upon Togo's victory. A continuance of the war would be a blunder as well as a crime. It is hardly to be believed that even the most headstrong and reckless Russian in official life will fail to see the necessity for bringing hostilities to

BODIES STREW SHORE

NEARLY 7,000 RUSSIANS PER ISHED IN SEA BATTLE.

Rough Retimates of the Terrible Loss Buffered by the Canr's Fieet-Battle Was Supremaly Terrible and the Big Victory Has Staggered Japan.

Rough estimates made of the Rus sian losses in the buttle fought in the Sea of Japan, exclusive of nearly 4,000 prisoners, yary from 7,000 to 0,000. It is thought that the majority perished Calculating the complements of the sunken and captured ships at upward of 10,000, this would leave 7,000 men unaccounted for. It is possible that the ships which escaped rescued some of the members of the crews of the less fortunate ships. Many bodies been washed ushore on the isl ands and on the shores of the neighhoring coasts near the scene of the battle

Rear Admiral Voelkersam, who was commander of the battleship squadron of the Russian fleet, was killed the first day of the buttle in the country Osliabla, one of the vessels sunk by the Inpanese.

Rear Admiral Voelkesam was ap polited commander of the battleship squadroil of the Itussian fleet in July last and left Cronstadt Aug. 25 wit the other vessels commanded by Ad miral Rojestvensky. It was Voelker sam's squadron, according to report which fired on the British trawlers in the North Sea, mistaking them for Inpanese tornedo boats.

Admiral Togo's supplementary renort makes the Russian defeat a stag gering disaster, imequated in naval history. Practically every fighting ship

ENQUIST, VOLKERSAM, ROJESTVENSKY

tions around Vladivostok during the summer was generally expected. No one in Japan dreamed of the enemy's annihilation at the first meeting. Late reports indicate that the aghting was of the most desperate nature. On Sat urday and Sunday there were persis tent torpedo attacks following heavy gun fighting.

Admiral Rojestvensky appears to have been honelessly outclassed in gun nery. It is reported that it was necessary for Admiral Rojestvensky to change his flagship five times during the battle. He finally took refuge of the torpedo-boat destroyer, where he was captured.

The Federal Cartridge Company was neorporated at Trenton, N. J., with an authorized capital of \$2,000,000. The Hydrothern Electrical Company was also incorporated there with a capital of \$1,000,000.

Russians broke in utter disorder, lost their formation and went zigzag. The Japanese closed in and pressed them to-The tight lasted until 7 o'clock in the evening. The correspondent continues: "Togo risked nothing and lost nothing: Darkness brought a glorious hight with smooth and transparent seas. The Rus-sians were edging northward with the powerful Japanese fleet in a horizonta line across their bows, forming an effe tive barrier. Then, under searchlight and cover of the big guns of the war ships, the Japanese torpedo flotilla began like locusts to sting and sink the enemy the Russians continuing to return the gunfire. At 2 o'clock in the moraing gunfire. At 2 o'clock in the morning the fighting was fierce and lutense and

no rest was allowed the Russians, "With dawn of Sunday the Japanese fleet came into still closer range. All day long the battle continued and by evening was raging off northern Nagoto, The Russians were powerless to offer any effective resistance."

The Veto Power in Ohio. For more than 100 years the Governo

of Ohio had no veto power, the present Governor, Myron T. Herrick, being the first invested with the power in that long period. The story about the way in which the veto power was taken away is an interesting one. Before Ohio be-came a State the Governor's salary was paid in fees. The returns were not suffi-cient to satisfy Gov. Sinclair, and he asked the Territorial Legislature to put him on salary. Accordingly two bills were drawn up. One of them provided a handsome salary for the Governor, the a nonsome salary for the Governor, the other abolished the fee system. The Governor passed the salary bill, but vetoed the one abolishing fees. It could not be passed over his veto, and he continued to draw both salary and fees. The next Legislature got even with a ven-geance by taking the veto power away from the Governor entirely. Since then no Governor of the State, not even Me-Kulley, has had any real power in his

Captain Serebrynikoff, un officer who which was sunk by the squadron of Admiral Kamimura last August in the sea of Japan.

The Veliky is supposed to have had aboard either Hear Admiral Foelkersham or Rear Admiral Nebogatoff, so that this must have been a serious blow to the second Russian division and probably disorganized it. An official telegram from Tokio to

Washington states that Admiral Togo

reports to his government that the total losses sustained by the Russian flee Saturday and Sunday were: Two battleships, one coast defense armor-clad, five cruisers, two special service ships and three destroyers—all sunk. In addition, there were captured two bat tleships, two coast defense armor-clade and over 2,000 prisoners. Admiral Togo adds that the Japanese squadron

How Rojestvensky's Great Fleet Was

Practically Annihilated by Japa. Here is the story of the great sea fight in the straits of Korea between the Russian flect under Admiral Rojestvensky and the Japanese under

GRAYLING, MICHIGAN, THURSDAY, JUNE 8, 1905.

"TOGO HOLDS THE STRAITS."

When Rojestvensky began the fight he had eleven battleships. When, after a brave fight of thirty-six hours. his battered, crushed fleet turned to flight two of these monster ships were at the bottom of the Korean strait Each ship was 13,516 tons and carried crew of 740 men. so that with these two vessels aloue 1,500 men went

Each of the three cruisers was heavlly manned and carried about 500 men which means a total of 3,000 men la the vessels, whose loss is specifically

After dividing and regulting his flest dozen times in the event of the pur suit of a policy of confusing the Jaff anese admiral, Rojestvensky collected his force off Baddle Islands—sixty miles southeast of Shanghal-on Tues day, passed a day in coaling and refitting, and on Wednesday night displayd signals and headed northeast for the Korean straits, 480 miles away.

But, according to the naval intelli-gence bureau of Nagasaki, Togo had ever been misled by the Russians atrategy. By scouts, by wireless and by a score of unnamed sources of information the Jananese admiral had kept in touch with the enemy and actually shadowed him from the moment of his departure from the Saddle Isl ands. More than that, Togo made his fight in the field spot of his own selec-

With Vladivostok as Rojestvensky's objective there were but two ways for him to reach that point: Either by the straighter, bolder course, through the Korean strafts, or by the roundabout course outside Japan, up to the Tsugaro channel, 1.555 miles from Shanghai, ending with a quick dash acros the Sea of Japan to Viadivostok. Had Holestvensky sailed around by the Pa elfic he would have found Togo walting for him somewhere about the Hakodate rendezvous. Rojestvensky chos the Korean strait route and found Togo waiting for him in the passage between the Tsu Island (Tsushhua)

and the Japanese forts of Shimonoseki.

CRISIS IN MOROCCO.

POLITICAL AFFAIRS AGAIN IN CRITICAL POSITION

Bultun Refuses to Accept French Pro posals and Fresh Complications May Follow-Action Is Regarded as Rebuff to Great Britain-Latest News.

The situation over Morocco is viewed with no little concern in diplomatic cir-cles in Loudon. Indirectly the Sultan's refunal to accept the French proposals is regarded as a rebull to Great Britain, but it is understood that rather than risk further complications France will be like ly to join the other powers in a conference at Fes, and Great Britain will follow suit. Should France decline to enter the conference, Great Britain likewise will decline, in which event serious diff-culty may ensue. Kaid Sir Harry Mac-Lean, formerly of the British army and recently retired from the command of the Bultan's bodyguard, has arrived in England. In an interview he said the Bultan was quite willing to receive assistance from other powers in securing re-forms and in the upbuilding of Morocco, but he would continue to decline to give any one power a monopoly of the direction of these reforms.

N. J., on a charge of compliancy ended with the acquittal of all four defendants. The defense contended that the from placed in life preservers did no harm and Thum Barn Victim and Force Him to that the government test of buoyancy was complied with.

PLAN WAR AGAINST ANARCHISTS

International Conference Looking to Suppression Probable. Following the attempted assassination in Paris of President Loubet of France and King Alfonso of Spain, it is announced that the United States government is ready to participate in an inter-national conference dealing with the question of the suppression of anarchists. Russia long has wanted an international agreement for dealing with anarchist agreement for dealing with anarchists and some years ago proposed a conference. But the United States at that time did not have upon its statute books any laws which would enable it to enforce any conclusions a conference might reach and it was problematical whether the Senate would ratify a treaty prescribing penalties upon persons upholding anarchistic principles. There is already a system of exchange of laformation between the police of Europe and the a system of exchange of internation between the police of Europe and the United States which results in a more or less close surveillance of anarchists, but that it is not adequate is shown by the case with which the plot was formed to kill the President of France and the King of Spain.

BOY'S VISIONS STIR COUNTY.

Hundreds Gather at His Bedside to Hear Hie Strange Experiences.
The strange actions of 15-year-old hauncey Boyer, son of John Boyer, a wealthy farmer near Lindsey, Ohio, continue to excite and arouse the greatest interest in the northwestern portion of the county. At the Boyer home, several hundred persons, some of them coming distance of many miles, assembled at the young man's interesting prayer and religious meetings, listening to his won-derful exhortations. During the last week hundreds have visited young Boyer, istening to the strange things he relates, and as a result not a few have been converted. He claims to be in constant divine contact and tells of visious of God and the angels.

which masted the signal across the continent, setting the machinery of the fair in operation. Vice President Fairbanks, representing the President, delivered an address. President A. W. Goode of the exposition and others also spoke. by sults.

8. It declares that the office of Presi

ment should be reorganized. No charge of dishonesty is made sgainst Mr. Tar-bell.

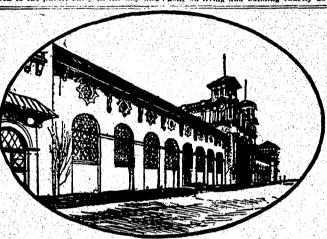

5. It condemns the salaries of \$122. 500 paid to James H. Hyde by the Equit able Life and its subsidiary companies the Mercantile Trust and the Equitable Trust, and censures a system that has prevailed in Mr. Hyde's office by which his personal clerks receive salary ad-rances sometimes as high as 250 per

TORNADO-PROOF HOUSES.

Genius of the West Must Invent New Form of Protection.

According to the dispatches from Oklahoma the people there are at least talking about united and systematic action to protect their lives, if not their property. from such tornadoes as that which de stroyed the little town of Snyder. They are to dig a lot of the retreats which the westerners will insist on miscalling cyclone cellars, while watchmen on tall towers are to observe the clouds night, and, when they see signs of dan-ger, are to warn the sleeping popula-tion by firing guns. That is something, and if it is not much, one must remem ton and Oregon, and multitudes of peo-ple from far and near, took part in the celebration.

The exposition gates were thrown open to the public early in the day and

FACADE OF EUROPEAN BUILDING.

many thousands of enger sightseers which for years has been conducted along were throughng the grounds within short time. Nearly every part of the country was represented by the various delegations. Prominent among the visitors were the members of the Con gressional delegation.

Great Parade in Feature. The feature of the morning was a great parade, comprising United State regulars and a force of jackles and marines, and including various bodies of State troops and civic societies and citizens. This procession was led by carriages containing Vice President and Mrs. Fairbanks, the visiting gov-ernors, the Congressional delegation and other visiting dignituries and the

exposition officials. Vice President Fairbanks was es corted to the grounds from the resideure of President Goode of the exposition, by a mounted band and a body of the Fourth cavairy.

Elaborate displays in attractive buildings held the attention of the thousands of opening day visitors. The European exhibits building, which is separated from the agriculture palace by the Sunken Gardens of Columbia Court, helps to make the plaza pleasing to the eye. In the center is a linge tower, which contains a roof garden where visitors have function gazing at the throng in the building hundreds of feet below The exhibits represent every country

in Europe and embrace art, science and industry. The oriental exhibits building attracted probably the largest crowds. Japan has a fine display, and China India the East Indies Cevion and others are competing. The building is of classical design, with 40,000 of floor space.

The government has five buildings. grouped in a peninsula extending into Guild's Lake. These house the fisheries, territorial and irrigation. pays, mint, and a dozen other exhib

The Transportation Building, "a big thing for the const," has among its exhibits the first locomotive used in Dregon, an engine thirteen feet long and seven wide.

The Manufacturers' Building, which ilso houses the liberal arts and varied Industries exhibits, has 00,000 square feet of space and holds the displays of hundreds of the leading manufacturers of the country. A working stove fac tory, cloth factory, knife shop, and "moving" exhibits are in the list.

Festival Hall, 300x125 feet, has a stage to accommodate 500 persons, and will be the meeting place for conventions, musical festivals, and other oc casions.

The Administration Buildings are two structures connected with a coloninde, on which is inscribed "West ward the Course of Empire Takes Its An entrance is at this colonnade. The Agriculture Building, the largest on the grounds, is 400x210 feet. The wonderful fruit of the coast States is there in abundance, amazing eastern visitors.

the tornado were a thing so rare as not to be worth taking into account.

That attitude is injudicious. Now that
the middle West is so closely settled that

hardly one of the ferocious little hurri canes can form and sweep its short and of human habitations, there is obvious need, not only of providing places of refuge, but also of building with some

CORRIDOR IN FORESTRY BUILDING.

reference to the terrific wind that is sure to come along sooner or later.

There is no reason for supposing that tornadoes are now any more frequent in the Mississippi valley than they were in the years when they were not heard of once a summer. We hear of them all now. There is also no reason for sup-posing that they will ever be less frequent.

SHEEPMEN JUBILANT.

The Wool Clip for This Senson Will Realize Nearly \$9,000,000. Montana's wool clip for this season will aggregate slightly more than 42,000,000 pounds, and of this amount more than 25,000,000 pounds have been contracted for on the sheeps' backs at prices averaging about 21 cents a pound. It is estimated that there are 7,000,000 sheep in Montana and the average clip will be about six pounds. Thus Montana sheep men will realize close to \$9,000,000 for wool alone, and as the price for mutton is above the usual figure, the year will he one of the most prosperous in the history of the State so far as sheepmen

are concerned. Never before in the history of the State has there been such activity on the part of huyers for eastern houses deed, the buying of wool on the animals backs will have the effect of doing away with the wool markets this year.

Montana being one of the latest of wool States, the shearers come from both East and South, California, Ohit and New York predominating. These shearers make splendld wages while the season lasts, some of them as much \$12 and \$15 a day. The rapidity with which a skeep is separated from its wool the fleece tied and cast aside by expers wonderful to babold.

ARMY NOW IN REVOLT

CZAR'B MANCHURIAN TROOPS IN OPEN MUTINY.

General Linevitch Telegraphs His Em perar that for This Reason a Continuution of the War Is Impossible-Reported that Nicholas Will Abdicate.

General Linevitch wired the Czar Wednesday that the news of Rojestvensky's defeat has spread throughout the army in churia and that the troops are in oper revolt. He points out that such conditions the ontinuation of the war is impossible. This is the crowning disaster in the series of ca-

lamitles that have OEN. LINEVITCH. Overtaken Russia since the opening of the war, Feb. 8,

1004 Itussia is left senseless. Crowds of illiterate muzhiks surround those who are able to read the news bulletins in the streets and ween while they listen to the pitiful details of the Tsushima catastrophe. The worst prediction of the enemies of the czardom are now found to be exceeded. All the ships not sunk have been captured. None has been saved except the Almaz.

Demand End of Regime. On all sides the cry is heard that the present regime is responsible and that it must be cleared out. The Czar is no longer considered. Even M. Sonvorine, editor of the St. Petersburg Novoe Vremyn, demands that the pec ple tike the helm of state into their own hands. Grand Duke Alexieff's organ, the Slove, exclaims that Russia has had calamities enough and demands a change of regime that will give peace. Rumors are spreading that the Czar intends to resign. The cation of a national assembly is confidently expected.

Ministers, generals and admirals interviewed by the correspondents were manimously of opinion that Russia had lost its sea power for half a cen-tury to come. They also thought that peace would come immediately; that modify Japan's demands and that internal reforms would bring about the regeneration of Russia.

Japan's decisive victory over Rus-sia in the Strait of Korea is halled by all Europe as the beginning of the end of the conflict. Berlin looks upon the sea battle as the greatest history-making naval engagement since Trafalgar. French naval experts declare Russia must bring the uneven contest to a close. London looks upon the result is averting a general European war. Japan believes Russla must accept whatever terms are offered.

Oyama in Action.
Dispatches from Manchurla say that Field Marshal Oyama is already in motion and that a general battle is at hand. General Lineviteh has near-400,000 nien, including the Fourth and Tenth army corps, which have arrived at the front sluce the buttle of Mukden. He has received hundreds of field guns to replace those abandoned in the retreat from Tie pass.

Oyama has fully 420,000 men. He s known to have received 80,000 reinforcements since the battle of Muk

It is believed Orama will send Nogi n a swinging march around the Russian left in an effort to get astride the milrond as far west as Tsitsihar, thus isolating the whole Russian army.

TOURIST CROP PAYS.

California Had Fifty Thousand Vis itors During Past Scason.
The greatest tourist season in the history of Culiforniz, is just closing. It yielded \$18,000,000 to Culifornia, and yielded \$18,000,000 to California, and millions more to the railroads, and the seed has been sown for a bigger erop next year. Forty thousand tourists visted California this season. They stayed on an average of fifty days each and spent an average of more than \$6 a day. Within a decade the "tourist business" of California has grown to an industry of considerable, proportions and it to considerable proportions and it

ve considerance proportions and it is jumping ahead each year at a remarka-hie rate. Last season 35,000 tourists vis-ited the State and it is estimated that, last season's tourists spent at least \$10,-500,000. Over three-fourths of the tourists to California travel a distance of over 2.000 niles to reach the Golden State. They probably spend for railroad fares alone \$120 apiece, so that from those who come from Chicago or farther east the railroads receive in the neighborhood of

rallroads receive in the neighborhood of \$4.500,000, and the fares of those from west of Chicago total more than an additional \$1.000,000.

Then there is sleeping car fare, \$14 each way from Chicago, or a total of \$28 each for 37,500 persons, or over \$1,000,000 for berths. Meals at a conservative estimate will probably amount to \$500,000 more. Altogether the 50,000 tourists spend in excess of \$10,000,000 in traveling, and this is an exceedingly conservative estimate, as the average tourist to ing, and this is an exceedingly conserva-tive estimate, as the average tourist to California probably spends more than \$200 on the item of travel.

Of the \$18,000,000 expended by tour-ists during the season just passed \$14,-000,000 was left in southern California,

nd but \$4,000,000 around San Fran-

News of Minor Note.

H. Clay Grubb, on trial at Salisbury. N. C., charged with the killing of his prother-in-law, O. B. Davis, Oct. 16, 1903, was nequitted.

James Tirney, who the police say aped from the government prison at Alatraz island, California, has been arsted in St. Louis. In fixing Aug. 8 as the date, for the of Edward Gottschalk, selfconfessed murderer of Joseph Hartmann, his accomplice in the murder of Christian Schindeldecker at St. Paul, Gov. John

son declares that he is opposed to capital Growing prosperity in the Dominion of anadian Pacific railroad. For the month 30c to 32c.

year ago, of \$514,232 and net carnings an increase of \$219,630. Judge Holt has named A. R. Conk-ling of New York as receiver for the pri-vate banking firm of A. C. Wilcox & Co., which assigned a few days ago. The receiver will take possession of the four-teen branch banks located in the farming

The worst feature of Chicago. the business situation is entirely due to further spreading of labor troubles. With the struggle now carried into productive branches and enforced idleness probade among large bodies of workmen, obstruction becomes intensified and requires prompt relief. Except for the local disturbance trade generally exhibits strong tone throughout the Chicago district, and the indications are good for continued industrial prosperity with the present difficulty removed.

In actual results the week's prog-ress affirms the inherent strength of commerce. Money remained in fair demand and bank exchanges made the largest gains during this month, as compared with a year ago. cial conditions here made a healthy showing, investment in improvements gained, and the security market almost trebled in dealings, without any disquieting change in values.

Crop reports played a strong part in he markets for the two leading cereals, and these being mainly unfavorable and the May options much oversold, it was not found difficult to manipulate sharp advances in quotations. These operations were not helpful in the general demand, for grain flour values were easier. Receipts of grain aggregated 2.074,429 bushels, agalust 2.120,130 bushels for the corresponding week of 1904, and the shipnents were 2.626,348 bushels, against 2,838,383 bushels. The production of flour has increased, but there is no corresponding gain in the forwarding and the foreign demand has remained remarkably dull.

Production in the leading branches is without diminution, and new commitments were made to a satisfactory Wholesale transactions reach ed a fair volume in stable merchandisc, deliveries were larger and State street activity was stimulated by better demand for seasonable wares. Country advices have been very encauraging, farm work showing rapid recovery from the effect of recent heavy rains, crop prospects remaining good and merchandising expanding. Western railroad traffic sustains exceptional magnitude, carnings stendi-ly exceeding those of a year ago. Heavy movement of manufactured materials, raw product and general merchandise provided most of the ton-nage. Marketing of grain has declined 22 per cent, but this is due to tempor-

Live stock receipts were 261,004 head, compared with 266,586 head a year ago. Shipping demand weakened in heavy beeves and hogs and sheep found ready absorption.

Fallures reported in the Chicago district number twenty-six, against thirty-three last week and eighteen a year ago.

Wholesale trade is sen-New York. sonably quiet pending a clearer view of crop outturn, which, owing to irregular or unsettled weather in wide areas, still lacks definite form. Cool weather is still a bar to fullest activity at retail. Manufacturing activity is still in large volume on orders previously booked. Speculative markets for wheat reflect technical conditions and short supplies in primary markets more clearly than do the slight deterioration in quantity and quality indicated as resulting from recent backward weather, which has also been used as a lever to affect corn and cotton. Collections reflect little more than seasonable slowness, and money is easy and in abundant supply. Rather more friction in labor matters is noted in Chicago. Despite efforts to accentuate less able happenings for stock speculative purposes there is still abundant evidence that the country's consumptive requirements are on a large scale. heavily exceeding a year ago at this time. Railway earnings for the first half of May exceed a year ago by 6.5

They should be located near a live city, where there is a steady demand for poultry products and in in easy reach for transpor tation purposes.

The most densely crowded hen population on record appears to be at Peta-luma, Cal., where the published figures over one million fowls, mostly of the white Leghorn breed, and kept for egg production, which industry is said to bring in an average of about 3,500 per day to the farmers of the

After an exhibit of corn at the Iowa Agricultural College, the premium cars were put up at auction. The car of corn that won first prize sold for \$11; ears that won a \$2,000 premium sold for an aggregate of \$102. One breeder that had forty ears of corn on exhibition bid them back at \$35 another man paid \$13 for ten cars while another ten ears sold for \$12. One collection of twenty ears brought The third best single ear was sold to the man that exhibited it for \$2.50. The grain will be used for seed

The making of foreign cheeses in America has greatly developed during form, where there is a liberal range the last few years. When a man goes to the market and asks for a cheese gather strength and frame. Oftenwith a foreign name there is no certimes the late-hatched chick, well cared tainty that he will get a cheese that for, will make a growth which will is made on the other side of the At- enable her to overtake the earlier lantic Ocean. In the main these hatched bird and be quite as good and cheeses are as good as those made as early a layer in the fall as the older in the place from which they are ex- sister. With late-hatched chicks the pected to come. The processes are louse must be persistently fought, not, however, identical. Thus, at a the warm weather brings out the in-Wisconsin convention attended by sect in force. The large gray louse Major Alvord about a year ago, a man is the one which makes the trouble in the audience declared that a certain brand of cheese with a foreign it may be destroyed. name was exactly the same, whether in Wisconsin or in Europe. Major Alvord declared that this could not be, because the cheese made in Wisconsin was made out of the milk of cows, while that made in Europe was made from the milk of goats Said he, "If you are making that kind of cheese, show me the goats."

Don't Forget the Shade.

If trees, bushes or vines can be provided for shade they are better than anything else, but a few boards placed anything else, but a few boards placed with one end against a building or the country can get in have enough, and see that they also have enough grain food at the house fence so that the poultry can get in de are much better than no to keep them growing sturdly and enable them to take on muscle.—Indian shade at all, and this applies to mature fowls as well as to chicks. If apolls News. there are no trees on the range or no which follage shade can be provided, place a few boxes around so that the fowls and chicks can get in them or stand in their shade. Then see that they have plenty of fresh, clean water during the day, and labor in cultivating and handling and with the shade they will be happy.

Uses for Moss Litter and Pest. The results of analyses and valua-tions of 111 samples of fertilizers examined under the provisions of the Dominion fertilizers act. 1800, and repre senting the fertilizers offered for sale in Canada in 1904, are reported in a recent bulletin, with general notes upon such subjects as care of nitrogen. treatment of barnyard manure, acquisition of nitrogen, utilization of sewage and moss manure. Analyses (water, ash and nitrogen) of twenty-four sammachine and left in sacks for six weeks or more will seldom germinate ples of moss litter and pest are included. The value of this material as an absorbent and deodorizer for use in privies is pointed out, and it is claimed that "moss litter might be applied with great advantage in public urinais."
When a sample of it was supersaturated with urine and artificially dried. and this process repeated several and the product was found on analysis to contain 12.41 per cent of nitrogen, which is equal to a valuation of \$22.20 per ton .- American Culti-

NEWS OF THE WEEK CONCISELY CONDENSED.

MICHIGAN MATTERS.

Buffalo Tragedy Looks Like Daubia Suicide - Luck of a Benton Marbor Palater - Boys Experiment with Tie on Car Tracks.

The village of New Buffalo is shroud ed in socrow as a result of a tragedy in which the lives of Mr. and Mrs. George Young, aged 24 and 18 years, respectively, bride and groom of less than a year, were sauffed out in the Gallen river. The double drowning, as near as le known, occurred shortly after 6 o'clock Tuesday evening. Mr. and Mrs. Young had gone to the river in the morning. The last seen of them was at a poin about a mile up the river. At that time they were in a small skiff and were row-ing up stream. As night came on they dld not return home and a searching party went out to make an investigation.
Grappling hooks were used and the river bottom was dragged in that vicinity, and after a few hours' search the body of Mrs. Young was found. Search for Mr. Young's body was continued throughou the entire night, but not until 10:30 o'clock the following morning was it recovered. The belief is that the young people committed suicide by mutua agreement, as the river where the bodie were found was not over four feet deep

Boon for Workman in Legacy. Louis Thomas, a painter, who for twenty years has struggled hard to support a family of ten children, has been informed that there is held to his credit in a New York bank \$75,000 as a legacy from his grandfather, which has been accumulating interest for twelve years. When a young man Thomas left his home in the East for the Black Hills in quest of gold. He failed and concealed his whereabouts from his parents, who died thinking he had been killed by Indians. His only sister, however, kept up the search for him and kept his in heritance intact. By chance the sister learned through a friend in Chicago that Thomas lived in Benton Harbor.

Put Tie on Track. Their desire to see a Rapid railway car stop was the motive which impelled a bunch of Clay township boys to place at the across the track in front of an approaching car, according to a confession made by the boys in the Circuit Court in Port Huron. The incident happened near Pearl Beach and only the quick action of the motorman prevented a posible catastrophe. Arthur Butler. Soigat and Renst Nichols were fined \$25 for the part they took in the escapade. William Marks and Charles Basnel, who were also arrested in connection with the affair, were released, they having advised against the work.

Soo Canal Celebration.

Aug. 2 and 3 are the daies fixed for the semi-centenial celebration of the opening of the Soo ship canal by the commission appointed by Gov. Warner. Peter White of Marquette was elected president of the commission and Charles Moore of Detroit secretary and treas-Moore of Detroit, secretary and treas will be given over to sports and the second to speaking and the delication of not to be ignored, especially on the a monument to be erected.

Forest Fires Near Gaylord. Forest fires started at the Wylie Bul Lumber Co. camps on the Haakwood branch of the Michigan Central and continued with unabated fory for nearly thirty-six hours. The loss will be

The little Smith girl is preserrated over the affair. The accident occurred at Platts.

Four new steel bridges will be placed across the Duff drain near Mariette.

The contract for the erection of the Carnegie library building at Howell has to Charles Bauer & Co. of Anu Constanting has a cement block fac-

tory, which is now turning out the blocks for a unsalier of new buildings now going up in the village. Mrs. Godfrey Lewick of Lima, an about 60 years old, was instantly kill-ed by an electric car on the D. Y., A. A.

Making a noose from his necktie and his shoe lares, Alexander Johnson, a Swedish insane patient in the county fall at Newberry, committed suicide by hang-

A creamery company has been organ ized at Vestaburg to manufacture ter and other dairy products. The capital of \$5,000 has all been paid in in cash.

The Cogswell Wheel and Hub Co, now located at Lakeylew, may move to Greenville if the business men of the latter place meet the proposition made by the company.

The great increase in the value of natural timber in this State was exemplified in a very forcible manner in Union City when Curtis Morrill sold thirtyseven line black walnut trees on his farm for the sum of \$3,000 cash.

Park Scott, a business man of Carland had a narrow escape. He was driving on West Bay street, Owosso, and was about to cross the Grapd Trunk tracks when an express passed by, coming so close to his horse that although Mr. Scott whirled about, the horse was struck by the engine in the head.

An aged and helpless pair of Hollanders, Mr. and Mrs. Jacob Tichdani of Kalamazoo, are to be taken to the county hammazon, are to be award to the county poor farm because their son and daugh-ter-in-law refuse to support them. They were wealthy when they lived in the Netherlands, but they emigrated to America thirty-six years ago to be near Their money is now all gone, and the home which they decided to their son ten years ago is now no place for them.

While going to lock up the prisoners for the night the under sheriff in Charlitte discovered that two had sawed their way to liberty and had about an hour's start. They are Hiram Lepper, alias Geo, Smith, waiting to plead guilty to larceny, a man with a bad prison record in several States, and John Garrian charged with carrying concealed son, charged with earrying concealed weapons. Three other prisoners in the jail evidently made no attempt to escape, as they claim to know nothing of the offair.

Loren Dripton, aged 24 and the son of prominent farmer, committed suicide at the home of his father, seven miles from Brown City, by taking strychnine. It is said that the young man had an al tereation with his stepmother concerning the use of a buggr. He died in great agony two hours later. The young man was married about eight months ago, but it is said that since returning from the Philippines about two years ago, where he served in the army, his mind has been somewhat unbalanced.

James S. Stont of Clarksburg, W. Va. vas married in Detroit secretly to Myrtle Mana of Mount Clemens after he had been rejected one hour before by Agnes Latonso of the same city. Stout and Miss Latonso had been engaged for some time, but when they appealed to the priest he made inquiries in Clarksburg which are alleged to have resulted in inding that Stout had already been mar-fed. Miss Latonso then refused to wed and within a few minutes Stout had pro-posed to Miss Mann, was accepted and an hour later married in Detroit.

Two more surprised young men would be lard to find than Channey Page and Harry Ayery when they were placed under arrest in Adrian for descriing from the United States navy. The many friends of the young men were also as greatly surprised, for they had made their home in the city for a year and a half and nothing of the kind was ever thought of in their connection. When the papers were served upon them how-ever, the boys owned up to being desert-ers. The two boys deserted from the Franklin at the Norfolk may yard Oct, 19. 1903, and came to Adrian. rrote an anonymous letter to the author-ties at Washington, and that was the way they were caught.

The following readjustments in Michigan postmasters' salaries have been an nounced: Alma, \$2,000 to \$2,100; Bellevue. \$1,400 to \$1,500; Brown City, \$1,-100 to \$1,400; Calumet, \$2,500 to \$2,600; Cheboygan, \$2,200 to \$2,300; Clayton, \$1,000 to fourth class; Coloma, \$1,100 to \$1,200; Coopersville, \$1,100 to \$1,200; East Jordan, \$1,400 to \$1,500; Gladstone, \$1,700 to \$1,800; Grand Marals, \$1,100 to \$1,200; Allegra, \$2,200 to \$2,300; Au Sable, \$1,400 to \$1,300; Boyne, \$1,500 to \$1,700; Burr Oak, \$1,400 to \$1,300; Capae, \$1,100 to \$1,200; Cfelsea, \$1,000 to \$1,700; Coleman, \$1,100 to \$1,200; Constantine, \$1,700 to \$1,600; Delray, \$1 S00 to \$1,000; Plushing, \$1,400 to \$1. 300; Grand Ledge, \$1,700 to \$1,800; Greenville, \$2,100 to \$2,200.

A lively race between naphtha launches took place the other day on Lake Michigan, with St. Joseph as the starting point. Thoraton Packard and Robert J. Hertfort, young men from Chicago, were defeated in the flight to timber. Gladstone and Rapid River the Indiana State line and landed in sent aid. The fire was extinguished the county jail. The boys had broken with a loss estimated at \$3,000. into the boathouse of Captain John Aldrich and had taken his \$2,000 pleasure, tanneh. With it they started out for a cruise. Itight after them followed officers on board the fastest launch in the harbor. It was nip and tuck for five miles, but the supply of gasoline gave out on the borrowed boat, and when the young men saw they would be overhauled they made their course for the beach. In this they were headed off and captured just before getting across the State line. Baird's opera house, Lansing's princi-

building will be greatly imprayed. Mrs. John Weber and her three children patiently waited in a pathetic lit-tle group at the Crosby line dock in Mil-waikee for the return of the children's stepfather. John Weber, who failed to appear. The Limity had arrived on the arly corning boat from Grand Rapids on route to Misucapolis, and upon land-ing, the hosban band father disappeared. Adam Fresh and Fred Possey were killed in No. I shaft of the Allenex name at Citimet by the breaking of the were which attached to the same in the work were found in the bottom of the shaft, having been crushed by the skip failing in them. Possey leaves a family, albert Fourner of Lake Landen has

been arrested on a charge of bigamy and placed under \$1.090 bonds. Balome La-branche, the alleged wife No. 2, is the complainant. It is alleged that Fouraier rountering to a regular at rounter tearries his first wife, Ida Louise at Ipswich, Mass., in 1888. A short time after he came to the copper country and was married last June to Miss Labersche. MICHIGAN SOLONS.

3-Cent Fare BCl Practically Dead. One of Speaker Master's rulings has probably emied all chance for the pas-suge of the Harris bill to reduce railroad fares in the upper peninsula to three cents a mile, as the Speaker will held that it requires a two-thirds rote to take a bill from a committee. Representatives Harris, Pettit, Clark and R. N. Adams, all upper peninsula members, tried to get a report on the bill from the House committee on rallroads, but they never managed to get the committee together. Harris said there was little use o move to take the bill away from the ominittee because Speaker Master would rule that it requires a two-thirds vote o take a bill from the committee which to take a bill from the committee which has it in hand. It has been the custom in previous sessions to require only a majority vote. When asked about the matter, Master said: 'I did not state what my position would be in any particular bill. I simply said in the course of a general discussion that I interpreted the rule to be that no bill could be adthe rule to be that no bill could be advanced out of the usual order without a two-thirds vote,"

Hauded Out Warm Roast "What has Michigan done for

dead heroes? You gentlemen have done nothing, individual cities have not the power and the public has no means. When foreigners come to this country we don't show them the fails you gentle men spend money on; we show them the monuments that we women erect." This was the way in which Mrs. B. C. Whitney of Detroit, president of the Michigan Daughters of 1812, addressed the House of Representatives the other afternoon, putting in a few plugs for the Macomb statue \$5,000 appropriation bill. She is the only woman who has been honored with a request to address the House this session and, though she hand-ed out some plain talk about the duties of the Legislature in making appropriations, she apparently made a very favor-able impression and was warmly ap-plauded. The proposition to erect a \$5,-000 monument to Gen. Alex, Macomb in Detroit at the State's expense has be ome a live topic.

Bills Signed by Governor. Permitting electric railway companies o own and operate boat lines. Permitting fire and marine insurance

companies to take wind and water risks Appropriating \$3,375 to replace a burn-ed cottage at the school for girls. Providing the serial bond system in

Changing the time of the annual meeting of township boards from the first to the second Monday preceding annual town meeting.

Appropriating \$14,811 for special purposes for the Marquette prison,
Compelling peddlers to display license tags on their wagons.

Regulating the issue of warehouse cer lificates.
Providing that teachers' certificates issued in one county shall be good in all other counties of the State.

the destruction of noxious weeds

Making Charlevoix a city. Baird Bill Passed.

It looks as if the fighting was all over. The Senate has passed the Baird primary election bill, 32 to 2, and the House lead-

ers have guaranteed to pass it through the lower branch of the Legislature. The direct voting men are satisfied that they got all they could; most of the convention men believe they made no more con-cessions than they had to. Gov. War-ner is pleased with the compromise, and, there is much talk of larmony. The bill as passed contained an important concession by the convention men. Instead of equiring a majority of the votes cast to make a nomination, as the bill provided after yesterday's fight, the measure now requires a plurality of 40 per cent to nominate.

Confine Salson Privilege to Hotels. The Attridge bill prohibiting the sale of intoxicating liquors in the town of Crosswell, Sanilac county, except in ho-tels, and establishing the "hotel" system tels, and establishing the "hotel" system that has long obtained in Canada, has been approved by the House. The bill provides that all bars must be accom-panied "by at least fourteen sleeping rooms with walls at least three inches thick.'

Appropriations Approved.

The House in committee of the whole approved of appropriations amounting to \$97,430, apportioned as follows: Asylum for criminal insane, Ionia, \$18,600; Kalanazoo asylum. 875,000; additional expenses for Michigan world's fair commissioners, \$1,000; for compiling record of Michigan Civil and Spanish war soldiers, \$2,200.

More Money for Naval Reserves. Representative Bland's bill providing for a tax each year equal to two-thirds of a cent for every resident of the State to be used as a fund for the maintenance of the naval militin was approved by the House committee of the whole. The present rate of tax for this purpose is one-half cent per capita.

Knocked Out New Jobs

The House by one vote killed the Tur-ner bill creating three fat jobs in the Secretary of State's office, at salaries of \$250, \$175 and \$150 per month, response tively. The measure provides for the compilation of a new index to the compiled laws. Galbraith moved a reconsideration, and the bill now lies on the ta

Against Child Labor, Against Child Labor,
The Senate passed Russell's bill to
punish parents of children delinquent
under the labor law when such parents
put their children to work in forbilden places after action by invenile courts.

Printers Far Behind.

The printing of bills after being passed by both houses of the Legislature may delay the fluxi formal adjournment though the forces of two printing houses have been kept busy nights, days and Sundays for some time, the long charter bills for Grand Rapids and Saginaw have kept back all other bills, and it is possi-ble that the rush to come may awamp things to such an extent that it will be necessary to keep the presiding officers of the two houses at Lansing later than June 17, the date for final adjournment fixed by the House.

Will Keep Down Expenses

The House ways and means committee and the Senate finance committee met to confer with Auditor General Bradley as to the general expense budget for the running of the State departments during the coming two years. Bradley eatd \$1,684,000 would be needed, or said \$1,684,000 would be needed, or \$384,000 more than was sllowed in 1908. Elowwer, the committees will allow not more than \$1,100,000, as they feel that this will be enough. Such a reduction would just oversees the \$200,000 increase in the express of reasing the asylumns and gives some pression that State CROPS SUFFER FROM FROST.

Date and Corn Grewth Blow, but Wheat Still Appears Promising.

The following is the general summary f the weekly crop report of the weather

During the week cading May 250 most of the country experienced unfavorable temporature, frosts occurring during the early part of the week in the plateau re-gions, in most of the northern tier of States, east of the Hocky mountains, and States, east of the Rocky mountains, and as far south as the interior portions of the middle Atlantic States. Itains interfered with farm work in portions of the south Atlantic States and east gulf States, Tennessee, and over an area extending from central Texas northward to South Dakota and in portions of the lake region. At the close of the week rain region. At the close of the week rain was much needed in New England and the middle Atlantic States, and sunshine and warmth in the south Atlantic and east gulf States and the Missouri valley. On the Pacific coast the weather was cool and cloudy, with showers in northern California, Oregon and Washington.

Corn planting is largely fluished, except in the lake region, Ohio valley and north-ern portion of the middle Atlantic States. Throughout the principal corn States germination and growth of corn have been very slow, owing to cool weather, and more than the usual amount of replanting will be necessary. In the contral gulf States part of the crop has been laid by. In this region corn has suffered considerably from overflows. In northern Texas, Oklahoma, Arkansas and Tennessee corn is much in need of captures of the crop has been laid by. In this region corn has if we wish to have fellowship with them we must think of Christ in the same way, The Book of Revelation seems to be especially designed to set before us three cultivation.

Winter wheat has suffered slight deterioration in portions of the central and western districts of the winter wheat belt, but it continues promising in the belt, but it continues promising in the eastern districts, an improvement being

reported from Ohlo.
Reports of injury from rust continue from Kentucky. Tennessee, Missouri, Okluhoma and Texas, and rust and black heads are appearing in Illinois. Generally the reports indicate that wheat is heading low. In Colifornia the crop is maturing rapidly and an average yield is reported. In Oregon and Washington growth has been rapid, too rank growth being reported from Oregon, where it is in danger of lodging.

In the Dakotas, Minnesota and No.

braska onts have made slow growth and the soul is especially receptive of spiritthe crop has suffered deterioration in
Texas and portions of the middle Atlantic States, but elsewhere and in principal producing States the outlook coutimes rear promising.

Georgia, Alabama and Louislana. Good Georgia, Alabama and Louisjana. Good stands are generally reported, but much planting remains to be done in northern Texas and planting is unfinished in Arkansas. In southern Texas and in portions of the central and eastern districts the situation is improved and the cran is dolug well in localities. Sources crop is doing well in localities. Squares are now forming in the southern portions of the central and eastern districts. Boli weevils are increasing in Texas. The general outlook for a good crop of hay

continues promising.

Although freezing temperature occur red in the northern portion of the spring wheat region, spring wheat is reported as in good condition in Minnesota, and while frost in North Dakota proved injurious, the crop in that State has not been seriously damaged. Over the south-ern portion of the spring wheat region ern portion of the spring when region the crop has made more favorable pro-gress, although growth has been slow. On the north Pacific coast spring wheai is much improved in Washington, but in Oregon it has advanced slowly:

BOMB FOR THE KING.

Life of Alfonso Is Aimed at by Anas Chiese in Paris.

An attempt to assasshate King Alfonso of Spain, while in Paris for a week's visit, and President Loubet of

France was made the other night by ar anarchist, who hurled a bomb beneath the carriage containing the two rulers

as they were leaving the opera.

As if by a miracle, both the King and
President escaped uninjured, but frag
ments of the missile seriously injured

five persons, killed or maimed a number of cavalry horses forming the escort, and knocked out a child's eye, The King and President retained their

presence of mind, his majesty sending back a member of his suite to make in-Quiries as to the condition of the wound-ed. The person who is believed to have thrown the bomb has been arrested, with two others who are thought to have been

implicated in the plot.
Great excitement followed the explo sion, rumors spreading immediately that the threats made by the anarchists to amassinate King Alfonso when he came to Paris had been successfully carried

It has been known very generally in It mas teen known very generally in Paris that King Alfonso was added to the anarchists' list of victims marked for slaughter recently, and when the an-nouncement was made that the young King would visit Paris the anarchists declared that they would make use of the visit to carry out their plo

Possibilities of Irrigation.

The United States government now was about 600,000,000 acres of vacant

owns about 600,000,000 acres of vacant land. Of this land the greater part is arid. About 6,500,000 acres are irrigated. There is water available for 60,000,000 more. Most of this land aiready irrigated is in Colorado and California. The cost to the government thus far has been about 88 per acre for irrigated land. A considerable area can be reclaimed at a cost no greater, but much of the land will cost 825 or \$30 when provided with water. It is estimated that if \$300,000,000 were expended during the next forty years in a large and contents. the next forty years in a large and con-sistent scheme of irrigation, the lands improved would be worth by the end of that period, not less than \$2,000,000,000. These are the estimates of Director Charles D. Welestt of the United States

SUNDAY SCHOOL

LESSON FOR JUNE 11, 1966 4-----------------------

The Message of the Risen Christ .-Rev. 1:10-20.

Golden Text.—I am He that liveth and was dead; and, behold I am alive forevermore.—Rev. 1:18.

The Gospel tells us how Jesus lived

The Gospel tells us how Jesus hved as a man upon earth, of His doings and His teachings.

The Epistles explain to us the divine side of His life and show us its meaning and purpose much more fully than the Gospels. We find in them also an elaboration of His teachings and many bists and explanations as to what they require and explanations as to what they require and explanations as to what they require of us in our everyday lives. principles that the Master-Teacher had fald down and instilled by countless acts fald down and instilled by countless acts and precepts into the minds of His few chosen disciples needed to be taught by them in turn, in similar ways, to those who were as babes in spiritual matters. It was not enough to tell the new con-verts that they must make love to God and man the guide of their lives. They must be shown something of what love could do in practice. Throughout the Epistles also we are made to feel that

especially designed to set before us three truths; First, that there is a continuous connection between what is going on on earth and what is going on in Heaven; one side of the pleture is here; the other there. Second, that a continuous war is being waged between Christ and Satan for the dominion of this world. And third, that all the phases of that war heterotype known beforehand by God, and that are known beforehand by God, and that there can be only one possible ending to it, namely that the Devil will be finally cast out and all his works destroyed.

Notes.

Verse 10 .- "In the spirit" is taken by some to mean in a trance. There are times in which one's thoughts and feel-ings may be altogether dissociated from the things that are familiar, and when

which Jesus rose from the dead—the first

tinues very promising.

Throughout nearly the whole of the cotton belt cotton is much in need of John heard behind him a great voice. Cultivation, and reports of abandoned He explains in verse 12 that after hear-fields are received from the Carolinas, ling it he turned to see who spoke. baps the voice came first to him so that he might be reassured, and not be taken too much by surprise by the glorious

eight he afterwards saw.

The voice was great "as of a trumpet."
It was the voice of One making a proclamation to all the world. Everyone must bear it.

Verse 11.—The R. V. puts the name "the Alpha and Omega" in the eighth verse, but not here. These were the names of the first and last letters of the verse, Greek alphabet, and here symbolized the beginning and ending of all things, in whom and by whom and for whom all

things exist. There are specific messages to each of

There are specific messages to each of the seven churches. It was not only these but the whole book that was to be sent as a message to these churches. Verse 12.—The golden candlestick, or rather lampstand, with its seven lights was an institution of the taberancle, (Ex. 25:31-40.) Here it appears as a setting for Him who said, "I am the Light of the world." (John 8:12.)

lagat of the world. (John S12.)
Verses 13-16.—The astonishing thing John saw was a person take unto a son of man." (R. V.) The form was manike, but the appearance in other respects denoted something more than hu-

The manner of dress worn by this Person seems to indicate that He was a Priest and a King. The white hair may stand as a symbol of age or wisdom; the flaming eyes, of far-sightedness and energy; the feet, of burnished brass, of stability; and the wonderful voice, of the power to make men hear and to persuade them.

sunde them.

Verse 17.—Turn again to Dani. 10 and read verses 7. S. 10. 18.

Verse 18.—Although it was so wonderful and fearsome the voice of Him who
"liveth and was dead" and is now alive
forevermore must have brought inexpressible happiness to John. He loved
to hear the voice of the Lord. The words "I am" take us back to God's announce-ment of Himself to Moses. They tell of a Being who is unchanging, who has been and will be, to whom time is not, and to whom therefore we may say there

are no past and future tenses. "the keys of death and c Hades" evidently means absolute control of life and death, and of those who are

Verse 10.—John is given his commis-sion direct from the hands of Christ, so there could be no doubt on his part that the visions he was to see and describe

tood for true things.

Verse 20 explains that the seven lamps stood for the seven churches, and the seven stars were their angels. We are taught to think of spirit beings who live before God in Heaven and who have something to do with the affairs of individual human beings.

Pair Warning.

"My dear," said Mr. Meekerton at the breakfast table the other morning, "what would you do if I were one of those fault-finding husbands get up cross in the morning and slam things around and kick up a row just because the coffee happens to be cold?"

"John," replied his better half, as she looked him squarely in the eye, "I wouldn't do a thing but make it hot for you."

Another Freak. "That young man of yours," said

the observing parent as his daughter came down to breakfast, "should apply for a job in a museum."
"Why, father," exclaimed the young

lady in tones of indignation, "what do you mean?" "Oh, nothing," answered the old

"only when I passed through the hall late last night I poffeed that he had two heads upon his shoulders.

be all exports and no imports. The the inevitable homesteader who plants reason is obvious. The ships which himself on any land that can be had take away our exports can not be ex-pected to come back empty. If there culture on a limited scale and berry is no more profit than what lies in a harvests more than kept the wolf from moderate charge for freight, they will the door. Finally came the prospector bring back some supplies on their re- with visions of wealth in some form turn trip. But the trade conditions of

markable growth in the demand for mutton has taken place in the United States and in England. The demand for wool is also increasing and values rising. Owing to long draughts both Australia and South America are short, while in this country the range territory is being rapidly restricted and its ability to supply mutton and wool is unequal to the demand. Henceforth America must depend more and more

hardens the heart and callouses the their secret well; and herein is estabsoul. It stifles all sympathy and fellow feeling. It puts a damper upon the beautiful life of self-sacrifice and altruism. The world is "ours." The altruism. The world is "ours." The ory by the ispiring battle cry of "Erin sky and earth, sunshine and shade, go Braugh!" flowers and birds, fruits and fertile fields, all are ours. And the Master of us all taught us to pray, "Our Father." Everywhere is needed this doctrine of "ours"-in the family, city,

ed with owers

The Future of Upper Michigan.

is no more profit than what lies in a moderate charge for freight, they will bring back some supplies on their return trip. But the trade conditions of the United States at present are very satisfactory and indicate that there is little change needed in the Tariff laws of the country. American manufacturers are gradually getting full control of the home markets, not only as to the staple articles of food und colting, but even in many of the luxuries of life.

The Saginaw Racing Association is out this year with a program of fast events, with \$500.00 purses, and the meeting, which is given August is meeting, which is given August is form. In the past years the racing and more exciting contests than has the larger meetings, for the reason that for the smaller purses the horses are more evenily rated and no one two of the big fellows cleans up the purses and leave a ranged field to come straggling in. People like to see those close, exciting contests that make one get up out of his seat and wave his hat. Those are the kind that draw the thousands of people to Saginaw come tree, and cause a falling of in the attendance of the more pretent with the sport offered.

During the last decade a most remarkable growth in the demand for mutton has taken place in the United States and in England. The demand for mutton has taken place in the United States and in England. The demand for mutton has taken place in the United States and in England. The demand for mutton has taken place in the United States and in England. The demand for mutton has taken place in the United States and in England. The demand for mutton has taken place in the United States and in England. The demand for mutton has taken place in the United States and in England. The demand for mutton has taken place in the United States and in England. The demand for mutton has taken place in the United States and in England. The demand for the suppression of the form of mutton should be suppressed extinated that they thrived mutton the suppression of the street com

An Ordinance

Relative to Sidewalks.

Capitalists should investigate the opportunities in this direction. They will be surprised at the result. The jack-pine lands of the north are to make hundreds of people wealthy. Saginaw News.

Irish Lead the Japanese.

Irish Lead the Japanese.

The secret is out at last. Now an admiring world will know the reason world will know the reson the street commissioner, and there upon the street commissioner, and there upon the street commissioner, and there upon the street commissioner, under the direction of the committee on side walks, shall, when necessary, determine the direction of the committee on side walks, shall, when necessary, determine the direction of the committee on side walks, shall, when necessary determines the direction of the committee on side walks, shall, when necessary determines the direction of the committee on side walks, shall, when necessary.

The secret is out at last. Now an admiring world will know the reason which, if well bred and cared for will prove especially profitable to the small farmer as a means of increasing his income and soil fertility. This county presents great possibilities in this respect.

It is Ours.

It is ours.

The secret is out at last. Now an admiring world will know the reason which such sidewalk shall when necessary, determine and establish the grade upon the stretch and establish the grade upon which such sidewalk shall be constructed, and he shall also ascertain, from the best evidence in his power, gansport, Ind., and he whostands sponsor for its truthfulness was the orator at a St. Patrick's day banquet. He contended, amid throuthous applause that Oyama and Oku are lineal descendants of ancestors who trod the Emerald Isle and still bear their Irish names, slightly modified—or Japanned, as it were.

"Oyama," says the orator, "is of Irish nacestry and his name as originally borne by his forebears was O'Yama, whose given name was Patrick." Patrick left Ireland for France and there they and the domestic misery that follows. The way to settle such a disagreement is for both parties to say "It is ours."

Because of the struggle for mine and mine, and the struggle for mine.

The Japanese generals met with such astions him the Japanese generals met with such astonishing successis in Manchurch walks, shall, when necessary, determine and establish the grade upon which such sidewalk shall be constructed, and the shall also ascertain, from the best evidence in his power, the names of owners or occupants of the lots or premises in front or adjoining to an a St. Patrick's day banquet. He contended, amid the mine and abutting on the line of the sidewalk so ordered to be constructed, and the consensual desired that they will be requirements thereof, and the requirements of such resolution, and if the premise adjacent to the line of the sidewalk herein mentioned, which shall also ascertain, from the best evidence in the form the best agreement is for both parties to say their descendants, who later migrated to Japan, naturally turned to fighting men."

Because of the struggle for mine and thine the records of history are rolled in blood, nations have fallen, barriers of hatred haved been raised, brother has fought brother. Envy, dissension and division have come because men have contended for that which is not theirs, but "ours." The doctrine of mine and thine pushed to its full extreme, is opposed to local government. In union there is strength. United we stand, divided we fall. Ideal government declares that each is for all. It is opposed to the fatherhood of God and the brotherhood of man.

Mine and thine, pushed to its limit, hardens the heart and callouses the

vhom such service was made.

Sec. 6. The street commissioner shall keep a true and itemized account of the cost of such walk so constructed by him and file the same with the vil-lage clerk, who shall report the same to the council at their next meeting, and the council shall refer the account to the assessor for assessment, and thereupon the same proceedings for the levy and collection of such ex-pense shall be had as for the collection

pense shall be had as for the collection of other village taxes.
Sec. 7. All crosswalks hereafter built shall be of cement, as ordered by resolution of the connecil, under the supervision of the committee on streets and the street commissioner.
Ordained and ordered published this 5th day of June 1905.

H. P. OLSON. Village Clerk.

Convention, of last week is too late for this issue, but will appear next week, paper published and circulating in said It was a success every may und "Up-lifting" in the cause.

GREAT APPIAN WAY

A ROMAN ROAD WHICH ASOUNDS IN ROMANCE.

Boldlers and Blaves, Monracra and Pleasure-Seskers, Idlers, Busy Traders and Lovers, All These Have Traveled Its Paved Surface.

Some things ramain unchanged throughout the ages while others are merely transitory despite an appearance of the greatest durability. Love and hate, joy and sorrow, are the same to-day as they were when man first discovered he was a creature with powerful emotions. Like the brook in the poem, they go on forever, regard-less of man's coming and going. The things man has built with his hands on the contrary, no matter how great have almost invallably crumbled to dust with the passing of time, leaving scarcely a trace of their existence.

On the plains of Asia Minor, along the valley of the Nile in Egypt, and in other of the older inhabited parts of the earth, there have at different to mark the place of their being. All have perished. Wood and stone, brick lave perished. Wood and stone, brick and mortar, have fallen into decay; and of the many homes that once sheltered happy families, of the imposing piles that housed the multifarious branches of trade, and of the magnificent structures erected to gratify man's desire for suitable places in which to worship, nothing remains in most instances except a few half-burled fragments. In place of these gone but a little way in bis flight when gested a trip over the Via Appla.

ALL THAT IS LEFT OF SCORES OF SPLENDID MAUSOLEUMS.

ames Dalrymple, of Glasgow, Who Is Now in This Country. James Dairymple, who came to this ountry to help Edward Dunne, Chi-

ago's Mayor, a dve the problem of muni cital. cipal control of street rallways, is an expert in that line. He is at the head of Glasgow's splendid system. Mr. Dairymple says;

The publicly owned and operated owned and operate street car system

JAMES DALRYNTLE

JAMES DALRYNTLE

STrive to so conduct the trainway system as to have a large surplus. We wish to provide for depre-ciation as a matter of course, and charge up 5 per cent to that account. Then we devote 2 per cent of the funds to the sinking fund. We have been doing this for eleven years and the obligation con-

tinues for nincteen years more, "We also make provision for paying something into the employes' pension fund, but we do not hold fares up to a point where we would amass a large surplus. We have reducist fares once and have never had a deficit. Glasgow perhaps got a better start on the right course than most cities, for we began building the nucleus of the present sys-tem in 1872, and have been gradually extending it ever since.

"At hiss the city leased the roads to a private corporation, whose tenure in our streets lasted for 23 years, ending June 30, 1801. This private company used horse cars and the service de-manded a ching. In this respect Gla-gow was then like Chicago—the people demanded better service and asked the city to operate the trains. The city took over the lines and immediately started to improve and extend them. Gradually the road was electrified, and in three years, or between 1898 and 1901, the work of tustalling trolley cars was accomplished.

The success of mainlyight operation and our policy of improving the service on be gathered when I say that in 1895. the Glasgow frams carried a total of invalid, but until S0000000 people, and in 1904 the total the recent ukase number of passengers was 200,000, conferring relig-

BUYING LABOR STRIKES.

The Chicago Grand Jury Sifts Charges Made by Unions and Employers.

The grant jury at Calcago has been hearing sensational conspiracy to bribe stories told by President C. P. Shea of the Termsters (Prion), and its format president, Albert Yeung, The investigation has promised to mearth immerous scandills connected with the balling of strikes of tenursers during the past force years, as Shea told the inquisitors that the strikes of features during the past force years, as Shea told the inquisitors that the strikes of apportance had been called in Chergs waves the employers did not make offers of money to labor officials. Shea's statements were corrected in the Termsters National Union, who went helone the grant Jury and told of offers which had been made to him to earl strikes on certain justices; houses, bouses, houses, who was been a certain justices, houses, by Franke B. Murghy Talls Her Fellew-Suffres no She Got Shi of Serious Trenhies by Simple Home Treatment.

"I had been bothered for several " mid Mrs. Murphy, "by stomach for, and finally I became very weak and nervous. Flashes of heat would pass over me, and I would feel as if I pass over me, and I would feel as if I was sinking down. At such times I could not do any household work, but would have to lie down, and afterwards I would have very trying nervous spells."
"Didn't you have a doctor?" she was

"Yes, I consulted several doctors but my health did not improve. One day a friend asked me why I did not try Dr. Williams' Piuk Pills. She assured me that they had proved of the greatest benest in the case of her daughter. In fact, she praised them so entlinsinstically that my husband got me a box."
"And what was the result?"

Before I had taken half of the first box my condition was greatly improved. The quickness with which they reached and relieved all my troubles was really surprising. After I had used only three boxes I had no more heat-flashes or weak spells. Thanks to them, I have

become a well woman."

Mrs. Mary D. Murphy lives at No. 1903 Force afrect, Fort Wayne, Indians. Dr. Williams' Pink Pills, the remedy which she found so satisfactory, furnish directly to the blood the elements that give vigor to every tissue of the body. They can be depended on to revive failing strength, and to banish nervousness. Their tonic properties are abso-

Intely unsurpassed.
As soon as there is drug, or dizziness, or pallor, or poor circulation, or disordered digestion, or restlessness, or pains, or ir-regularities of any kind these famous pills should be used. They have cured the most obstinate cases of animuia, dyspepsia, rhommatism, neuralgia, nervous prostration and even partial paralysis.

If you desire information specially suited to your own case write directly to the Dr. Williams Medicine Company, Schenectady, N.Y. Every woman should have a copy of Dr. Williams' "Plain Talks to Women." which will be mailed free to any address on request. Any druggist can supply the pills.

Testifying before the Senate committee at Washington, Interstate Com-merce Commissioner Prouty sold in discussing the proposition to give to that commission the power to regulate rallway rates:

"I think the railways should make their own rates. I think they should be cllowed to devolop their own business. I have never advocated any law and I am not now in favor of any law which would put the rate making pow er into the hands of any commission or any court. While it may be necessary to do that some time, while that is done in some States at the present time, while it is done in some coun tries, I am opposed to it. * * railway rate is property. It is all the property that the railway has got. The rest of its property is not good for any bing unless it can charge a rate. No it has always seemed to me that when a rute was fixed, if that rate was an unreasonable rate, it deprives the railroad company of its property pro tanto. It is not necessary that you should confiscate the property of a railroad; it is not necessary that you should say that it shall not earn three per cent or four per cent. When you put in a rate that is inherently unrea sonable, you have deprived that com pany of its rights, of its property, and the Circuit Court of the United States has inrigilation under the fourteenth amendment to restrain that. . . I have looked at these cases a great many times, and I can only come to

ease and comfort." Name given by

Not long ago a United States Sena tor called at the Treasury in Wash ington to offer for redemption the re mains of some paper money, believed to amount to sixteen hundred dollars which the family of one of his con stituents had found among the rafters in the attic of their house. After a few days a check for twenty-nine hundred dollars was issued to redeem the old bills, which represented a much larger sum than had been supposed. A citizen of Ohio lately made a need-less trip to Washington to tell the story of his putting several hundred dollars into a gas-stove for safety. He desired the government to redeem the fragments remaining after the de struction that naturally followed. Here again the identification was so easily made that he received within ten dollars of what he originally possessed. His carelessness was not too severely punished. But in these cases the Treasury officers were exceptionally successful. Claimants are often astonished and aggrieved because the Miss Maria Ducharme, 182 St. Elizabeth street, Montreal, Can., writes:
"I am satisfied that thousands of women suffer because they do not realize how bad they really need treatment and feel a natural delicacy in consulting a physician.
"I feit budly for years, had terrible pains, and at times was unable to attend to my daily duties. I tried to cure myself, but finally my attention was called to an advertisement of Peruna in a similar case to mine, and I decided to give it a trial.

"My Improvement becam as soon as government will not take their word for losses of this kind. Congress alone can compensate for losses that cannot be proved by a production of some parts of the notes. The Treasury rule is to redeem a bill if its major fraction can be identified, or where, with less than that, affidavits establish conclusively the actual loss estainish concursively the actual loss of the rest. It costs something to keep money, either metallic or paper, in good condition. Gold coin passes by weight, and if it is under weight "My Improvement began as soon as I started to use Peruna and soon I was a well woman. I feel that I owe my life and my health to your wonderful medicine and gratefully acknowledge this fact."-Maria Ducharme. the loss falls on the owner. Silver coins are redeemed at their face value, and the loss by abrasion or wear is borne by the government. The con-Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio, for free medical advice. All correspondence strictly confiden-tial. stant substitution of new paper bills for old ones entails a considerable expense on the Treasury. Most people think the government should keep money cleaner than it is by more frequent redemptions. This is an improvement that will probably come in

DESTROYING HER LIFE.

An lown correspondent asks me to give him my opinion as to whether or not any of the dumb animals have The wealth of the United States exceeds that of any other of the five great nations of the world. The real sympathy, says John Burrough in Outing, and added that a minister at a wealth of nations is the difference be funeral in their town had said that tween assets and liabilities, between no animal except man was capable of property and debts. Mr. Ballard, in the New York Sun, shows that the real wealth of the United States is greater er animals. When we sympathize with a person we put ourselves in his or her than that of any other nation worthy of comparison, both as a whole and per capita. The following table shows the estimated wealth of the five great nations of the world, their national suffering-all of which implies more debts, the difference between the two being the real wealth of each:

Country. Wealth. Debt.
United States \$100,000,000,000 \$ 223,000,000
Great Britain 50,000,000,000 3,883,000,000
France 48,000,000,000 5,884,000,000
Germany 40,000,000,000 2,385,000,000
Russia 22,000,000,000 1,334,000,000 The following table compares the

wealth per capita and the debt per capita of the same five countries, there be ing excluded from the population of each country its colonies and dependen cles:

Wealth Country per capita. per capita United States \$1,340
Great Britain 1.450
France 1.200
Germany 740
Bussis 212 \$11.00 92.00 150.00 70.00 24.00

Thus it will be seen that the real wealth of the United States, calculated both as a whole and on the per capita basis, is larger than that of any one of the five great nations of the world And when it is taken into consideration that the wealth of the United States has increased to such proportions prac Lord Salisbury's classification of this emotion we call sympathy it is, of course, the dog. The dog has so long country among the growing nations seems fully to be sustained.

> Economy in government expenses. made necessary in every department by the large deficit in the revenues, threatens to be applied heroically in the rural free delivery service. Unless the people living on the routes make a vigorous protest, rural free delivery will be placed on a contract basis. It costs the government \$28,000,000 year to run the rural routes, paying carriers a maximum compensation of \$720 a year. The average pay is \$100 per carrier, the rate being fixed by the length of the routes. The pruners who are looking for spots where the expenses of the government may be decreased figure that by let ting out contracts for the rural service

ment is now paying.

the work can be done at a cost not to exceed two-thirds of what the govern-

An interesting story is told of an inserted comma which cost the United States government \$2,000,000. When the United States Congress was drafting the tariff bill it enumerated in one section the articles to be admitted on and began to eat Grape-Nuts instead of the free list. Among these were "all foreign fruit-plants" The copying clerk -in his superior wisdom-omitted the 'fruit," so that the clause read, "all foreign fruit, plants, etc." The mistake could not be rectified for about a year, and furing this time all oranges ons, bananas, grapes and other foreign fruits were admitted free of duty, with a loss to the government of at least \$2,000,000 for that year. that those organs had been bealed, and

> Fed buildings seemed more descried than the White House during the President's absence, and particularly was this true of the office quarters. Only an occasional tourish, who wondered how the executive offices look, and could see them at no other time, strolled through what are ordinarily crowded reception-rooms, with a line of visters in waiting. The preservoin was empty; its telephones were allent; the switchmen of the private branch exenange had few calls to answer. The telegraph-room was also quiet. The clocks, except as they were perferming routine duties, acted as it the engine had stemant.

eletent Copyrtary Departie. Has Burion Reynolds, the Ass ant Secretary of the Treasury in charge of customs, helds one of the ost highly educating positions in the government service, says the New fork Post. If its occupant has even speaking acquaintance with the subects discussed over his signature, as prescuted in the well-known publica-"Treasury Decisions," he cannot bely becoming a very learned man.

Mr. Reynolds discusses with the colector of customs at San Francisco the question whether small oil lamps with colored reservoir and globe are properly dutiable at 45 per cent ad valorem as manufactures of glass, under paraare dutiable at 60 per cent ad valorem as "articles of glass, painted, colored, stained, or otherwise ornamented or decrated," under paragraph 100 of the same act. Mr. Reynolds informs the collector that it has been represented to the department that the glass globe and reservoir "was in fact colorless but had been colored or decorated with a red lacquer and represents quite a common method of coloring articles of giassware."

In view of this subtle distinction, by which something which was in fact colorless had been colored, Mr. Reynolds orders an assessment of duties at 60 per cent, but acknowledges that his reason for this decision is to get the case before the board of general appraisers "for fuller trade testi-This testimony will probably mony." chow when the colored is colorless.

On the subject of dress shields Mr

Reynolds reaches an easier conclusion The controversy arose as to whethe a dress shield made of cotton and rubber should be classified as wearing apparel, the chief value of which was in the cotton, or as articles in which rubber was the chief item of value. The United States Circuit Court wrestled with this problem in the case of Biley against the United States, and Mr. Reynolds, after discussing the tice, decided to take no appeal from that tribunal, allowing its that rubber is the main ingredient to stand. He tells the collector of cus toms at Philadelphia to return the exess which has been charged. Mr. Reynolds sees with his official

eye considerable growth in the production of "limitation seal furs" for export. More than ten years ago the department adopted a regulation estabishing a rate of allowance for draw back on this article, manufactured by a New York concern which Mr. Reynolds says "Imported dressed, dyed and sheared rabbit skins, and by a process known as unhairing" accomdished this. A concern in New Jersey desires to export sent furs of the same sort, and has applied for the drawback privilege. Mr. Reynolds directs that it be granted. These are only typical

daily deciding.

Thought She Couldn't Live. Moravia, N. Y., June 5.—Mr. Benjamin Wilson, a highly respected resi-dent of this place, came very near losing his wife, and now that she is cured and restored to good health his

Backache, "The Blues

Both Symptoms of Organic Derangement & Women-Thousands of Sufferers Find Relief.

Burely such testimony is convincing Mrs. J.G. Holmes, of Larimore, North Dakota, writes:

Dakota, writes:

Dear Mrs. Pinkham:—

"I have suffered everything with backaches and womb trouble—I let the trouble run on until my system was in such a condition that I was unable to be about, and then it was I commenced to use Lydis E. Pinkham's Vegatable Compound. If I had only known how much suffering I would have saved, I should have taken it months soone—for a few weeks' treatment made me well and strong. My backaches and headaches are all gone suffer no pain at my mensitual periods, whereas before I took Lydis E. Pinkham's address is Lynn, Mass., her light whereas before I took Lydis E. Pinkham's address is Lynn, Mass., her weeks before I took Lydis E. Pinkham's address is Lynn, Mass., her advice is free and cheerfully given to every alling woman who asks for it.

Her advice and medicine have restored to health more than one hundred thousand woman.

Ask Brs. Pinkhem's Advice-A Woman Bost Understands a Woman's Mis.

How often do we hear women say: "It seems as though my back would break," or "Don't speak to me, I am all out of soriar" These significantremarks prove that the system requires attention.

Backache and "the blues" are direct symptoms of an inward trouble which will sooner or later declare itself. It was been and before a blues to be a seem of the size of the size

will sooner or later declare itself. I was be caused by diseased kidneys or some uterine derangement. Nature requires assistance and at once, and Lydia E. Pinkham's Vegetable Compound instantly asserts its curative powers in all those peculiar aliments of women. It has been the standby of intelligent American women for twenty years, and the ablest specialists agree that it is the most universally successful remedy for woman's ills known to medicine.

The following letters from Mrs. Holmes and Mrs. Cetrely are among the many thousands which Mrs. Pinkham's Vegetable Compound at once removes such troubles.

Burely such testimosy is convincing.

No other medicine in the world has

No other medicine in the world has received such widespread and unqual-fied endorsement. No other medicine has such a record of cures of female troubles. Refuse to buy any substitute.

By Theodore Dahle.

BARONET.

Leonard Burnleigh-Burnleigh shivered in his garments, shivered to the very marrow, because he was hungry and cold, and hadn't the wherewithal to buy food and warmth and shelter.

Yet he seemed a gentleman-sixty years of age; a gentleman, and suiv ering! Shivering under his greasy, ailk hat, in his green-black frock coat with its rusty silk facings, and in his threadbare trousers; suivering from his clean paper collar to his gaping

Ine drear November sky blanketed London with the usual fog that was half a mist and half rain. The biting northeaster cut through the haronet skin into his lungs, razor-keen.

Within him was a vacuum, vearning vold, and he longed to eat filled. But vold, atas! were his pockets also.

Without begging, or stealing, or borrowing, all which were beneath dignity of a gentieman, he could not have raised as much as a cent. He had nothing for which a pawnbroker would issue a ticket, nothing to vend, nothing to hope for.

He was without a home, without even a bed, so bad was it with him: He was at the stage when a man feels that two of the hig copper coins that England calls "pennies" constitute a fortune.

mighty human thie of the Strand hurried past him, heedless. cold, unpitying swish of it was for his eyes, the hum of it for his

He was one among millions, and millions were busy with their own affairs, as is their wont.

Each separate unit was pulpitant with its pleasures or pains, its hopes or fears, its struggle, its defeats or

it triumphs. if the sidewalk under him had suddenly gaped wide and swallowed his shivered body utterly, not one unit would have missed him, not even the editor who kept his name shining in the classic pages of the peerage

baronetage, and what not of that is-He was not a gentleman who could work for long, or he happy while he fougat the wolf at the door.

Until he was thirty life appeared to be that of one who had been particular in the selection of his parents.

Then his father was gathered to his ancestors, and till he was forty he lived without stint-even as his father had lived.

At fifty, as indicated by the cheirosophists, the fate line of his hand parted—the bank in which lay bulk of his earthly treasure called in the official receiver, and, after the lapse of three years, paid the English equivalent of three cents to the dol

At fifty-two his gold-mining shares went to the bottom of the Stock Exchange list-and stayed there.

On his fifty-fourth birthday, the sad news came to him that the only surviving partner in the firm who had been the family solicitors for genera tions had blown out his brains; and within a week he discovered that this sofemn act had been accomplished apparently to avoid ten years' impris onment for forgery and malfeasance.

Thereupon Sir Leonard realized that he was worth exactly what he Stood up in, which, at that momenincluded twenty pounds in notes, a number of rings a gold chronometer gold watch chain and a fur-lined cloak coat.

He lived on the twenty pounds, the chronometer, the watch chain and the rings for two whole years, and brushed his garments regularly, as a gentleman should.

Then he tried to work in a feeble. mood-natured, whole-hearted sort of way, eventually gravitating to the docks, where other gentlemen once moving in Englands higher circles may be found and where he was eventually crowded out by younger and stronger bands.

The day before yesterday he left the gates with sine pennies in his ion. Yesterday he had four, and they bought him three meals. day, copperiess, and soaked atmospheric occe, se was gliding

evill chairs may due." came nearer to his due as he threaded the inbyrinthine streets in oly duck, with the lamps limitthe up the death-patter of his fine

ARGS. he m large house, and rang the bell, boidly at the front door--as a gentleman

The sound ecooed through the quiet corridors. There was a ciatter of boits and locks. A person in uniform came to the door.

'May I come in!" asked Sir Leon Ard: suavely. "All right!" exclaimed the porter;

and in Bir Leonard stepped. For the first time a shudder ran through him as the door swung behind him and the bolts were drawn. "Which is my room?" he asked,

presently. 'Hold on!" exclaimed the porter. "None o' that. Hand over what's in yer pockets. Yer can sign for 'em, and get 'em when ver go out again. "I have nothing in my pockets, or anywhere else," observed Sir Leonard. "Nor do I desire to come out

in. I have come permanently. If will kindly show me to my room, again. and bring me up a little food—as I am very hungry—I shall be obliged. "Oh," was the reply, "you're one o' them sort, are yer—come for life!

Well, your room's the bathroom ter start with, and plenty of soap. D'ye hear? Don't forget the soap." Sir Leonard did not think the por-

ter a very affable person, nor did his manners appear to be those of the drawing room. But he allowed them to pass without rebuke.
"Thank you," he said. "I shall be

delighted with a bath"-and he pro-ceeded to pass along the corridor in

search of the same.
"Here, you hold on!" called the porter. "Yer go on as if yer owned the whole workhouse. What's yer

He glared at his visitor. He had never received one of this kind, and he had had fifteen years' experience. "Sir Leonard Burnleigh-Burnleigh." There was neither brag nor bluster

n the tone. If in other and happier circumstances Sir Leonard had been asked the question by powdered footmen whose duty it was to announce his entrance at the reception of a West End hostess, his tone would not have

been percentibly different. The porter laugued increduously. Then he stood grinning from ear to

"Sir-what?" he chuckled. "Say it against cap."

Sir Leonard had philosophy iorts, but not humor. So, without further parley, he started off to go in search of the bathroom, but again he was called back. "Here! Stop. I tell yer, Lord-

What did yer say yer name was?" "Sir Leonard Burnleigh-Burnleigh. fear you are a little deaf." answered Sir Leonard, with a suggestion of annoyance and impatience; not at anything the man had said, out at he regarded as unnecessary formality in an institution in which he had always understood all were as welcome as the flowers of May.

It was on this supposition that in other days he had paid his heavy poor rates regularly. Besides, he was hungry and damp, and felt generally un-

The porter glared harder,

he exclaimed, clicking his tongue and shaking his head up and down in the manner of a man who had come to the conclusion that wonlers would never cease. tion next day. When he returned to the institution, it was as a visitor. and he was accompanied by the spark ling widow-widow now no longer, by the way, but Lady Burnleigh-Burn leigh.-New York Weekly.

ABOUT GRAPE FRUIT.

How to Select it and the Best Way to Prepare it for Serving.

In selecting grape fruit, the safest general rule of choice would seem to e to judge by weight. Other things being equal, the heavier one of these golden globes the better. If relatively light in weight it will be found juiceless and unsatisfactory. Color. skin texture, rust and other superficial indications may be guides, but if so they are not infallible. fruit should not, as the rule, be eaten fresh from the fruiterer's stall. If kept in the house a week or ten days. open to the air and in an equable temperature, it improves beyond recognition. Until decay begins, the softer it is the better.

The way of preparing the grape fruit in which it is really the most delightful is one which few know, and fewer would practice, since it involves a great deal of trouble. is: Remove the yellow skin by close paring, and then peel away the white skin until the pulp sacs are exposed and divested of all the better integument. Then very carefully separate

the segments one from another.

This can be done, but not hastly delicate as a surgical operation. vants almost always make a failure. of it. Assuming that it is done neatly, however, the segments are stood, thin edge up, on a napkin-covered plete-the function of the napkin heing to absorb any juice which may THE MISFORTUNE OF A BAROleak from wounds in the membrane of the segments. They are then set aside for twenty-four hours or longer in a dry, warm place. During this interval the membrane dries and assumes the consistency of parchment, which is exactly the result desired. In eating it, take a sharp-pointed knife and split the segment open along its thin edge, remove the loose seeds, and turn the segment in sid out. It is then eaten from the fingers, and all that is bitter or fibrous or other than delightful remains attached to the fragment of parchreturned to the plate. The trouble is repaid.—New York Times.

> Long and Short Railroads Contrasted. American and English railroads are operated under different conditions. The American track mileage is 200, 000, the English 22,152. The American railroads carried more than 665-000,000 passengers, the English roads fully 1,290,000,000. The traffic revenue of the American roads was \$1, 720.814.900 and of the English \$500,-061,164. The net traffic receipts of the American roads were \$560,900,000 and of the English \$200,000,000. The American roads employ 1.189,315 persons and the English roads 575.234. The working expenses of the American roads are 67 per cent of the gross receipts and the working expenses of the English roads 63 per cent. The cost of operating a mile of American road is \$5,810, of English road \$13, 626. The American roads clear \$2,800 a mile on operation and the English roads \$9,000. The American roads have six employes for every mile of track and the English roads have twenty-sight.-World's Work.

Semething to Tie To.

It was at the last of the insugura concerts given at the pension building "in honor of the American At one end of the great hal people," was the platform, filled by the chorus and the Marine band. Everywher else—in throngs upon the floor, in a closely packed procession pressing through the upper gallery, filling every chair in the various rooms-were per ple of every class and station, women in evening gowns and women in shirtwaists, men from city, farm and prairie. Saxon and negro, untive and for-eign-born, in short—the "American

people."
Presently there appeared at the en trance of one of the rooms a stout pleasant-faced woman with a half a dozen young people. Just as the group appeared two persons who had been sitting in the room rose to leave The stout woman, with a sigh of relief

secured one of the chairs. "There," she exclaimed, "now we're fixed! You young folks can go where you want to, but I'm going to stay right here. Now mind, you're all going to meet here to start home. I shall atay till every last one of you has come, if I have to camp here all night And you needn't any of you try to atl

me before that, for I sha'n't budge." The young people laughed and scat tered; the newcomer turned to the stranger next her.

"'Tisn't any pienic to take half a dozen young folks to inauguration," she confided, "but we've got along first rate by my always giving them on thing to the to and leaving them free for the rest. They're so afraid they'll miss something, young people are They haven't learned that no mortal living can see the whole of anything and that the biggest part of what you see is justice your head, not outside anyway. They wouldn't believe it it any one should tell them I have better times than they do, but I do!"

Yet it was easy to believe that she did. Her shrewd kindly face was full of interest in everything and everyhady Several times in the course of the evening some of her charges drift ed back-one or two to rest, a girl to have a torn dress pluned up, and at last, one with a message:

"Phil says he's found a quicker was to get out, and we'd better come dow

Then the spectators had a new light "You tell Phil that he's known his Aunt Martha over twenty years, and she hasn't changed in the last hour He'il come back here."

So Phil came, laughing but obedient Aunt Martha gave him a humorous glance, but the matter was not men loued between them. Promptly and in good order she got her party off.

"Wouldn't you like to have an Aunt Martha 'to the to'?" asked a woman who witnessed the scene, of her friend.
"I'd like to present one to every family I know, including my own, was the prompt response .--- Youth's

CONTRAST AT ELLIS ISLAND

ly among the tens of thousands of incomers is there one lacking the simple virtues of the peasant, and the exception may be detected as easily as may a crowded sheepfold.

Of the 812,000 men, women and children whom the ships brought to Ellis (sland last year less than one in a hundred were rejected, and only the smallest sprinkling because of a criminni record. Those who were sent back were refused admission because they were in ill health, were likely to ecome paupers or were contract is

borers. The metamorphosis which a year's residence in the United States causes uncouth immigrants is something astonishing, particularly if the newcomer is a woman and has spent the year in the metropolis. When the immigrant lands at Ellis Island beor she-is an outlandish-looking object, outlandish as was ever no stage clown. Invariably he has a bundle, and his wife has a bundle—a bundle done up in anything from the size of a pocket handkerchief to a large taelectoth. If the bundle is a small one it is carried in the hand or slung across stick over the shoulder: if large bundle the woman ties it across her back, leaving her hand free to balance, perhaps, a small paper trunk on her head with one hand, and with the other to drag a load of precious and archaic pots and pans to which she has clung like grim death since the eventful day when she left her hovel far belilud. The children, or such of them as are not babes at the grily watched the home leave-taking breast, follow in tine, each bearing his own little momento of old world houseof a little companion us they set off for school. "She has so much houseseeping—a ten kettle, a pot, a wooden

They see nothing to be ashamed of dence of love in many households where the members would be shocked n all this on the contrary, they are hordinately proud of this public pas ade of their worldly possessions, and New girdle belts are of moire silk all the toll is for the sake of those It is hard for them to understand the shame and mortification which their gaucherie causes their loving and beloved ones, they say, and really be-lieve. And yet the work has become eager friends who come to welc them. If the Americanized friend is woman, especially if she be a young woman, one may depend upon it that her unsophisticated country woman has The short estrich scarf, going just which everything else must be sacgot to be amazingly "prinked up" fore they set off together. Not infre-quently a "lady friend" gifted with forethought will have brought with her an entire new wardrobe all a la mode for the newcomer, and it is a common occurrence to see one of these ambitious kinswomen literally forcing her dazed neasant friend to lay aside her picturesque kirtle and bodice, her gay headdress, her long pendant ear-ring—beloved treasures—and don in their stead, in such privacy as can be secured in the door ways of the long exit corridors, cheap and tawdry black Skirts and a white shirt waist and a picture hat laden with flowers and feathers.

In a few months the peasant girl

becomes habituated to wearing corsets about her strong young waist, and she blushes to think of the sight she must have been when she landed. with a bundle on her back, and when she in turn goes to meet some one of her friends it is difficult to realize how

radical has been the transformation. A Discouraging Outlook.

The weekly New York paper which chronicled gay doings not only in that frivolous metropolis but in England and other foreign ports as well, afforded Mrs. Emmons keen enjoyment, and gave her many an excuse for righteous wrath. This fact had been fully appreciated by her son, who sent her a year's subscription.

"Listen to this, Bije Emm commanded one night, the paper trambiting in her hands. "It's the account of a grand reception in Landon, and this is what it says: "The Honorable Winifred Cowles was in black yelvet, radded with jewels, the bodice and sleeve straps being en-trusted with sparkling game. The Honorable Frances Sathbone ways rich lece."

"Now you mark what I say, Mrs. Bushoos. "If our young i that go ever to manual age of our man's noting to become of our what's going to become of try? A follow that'll safe to be rigged up in any that ten't libely to know the
